utilized SDOH
referrals

CONNECTING RESOURCES

226 new community partnerships are helping connect patients to resources closer to home.

CHANGING CARE PRACTICES

46 organizational and systems-level changes have occurred that are improving practices across the care continuum.

IMPROVING COMMUNICATION

350 clinical and non-clinical staff have been trained in implicit bias and delivering culturally sensitive patient-centered care, guiding more effective patient communication.

DISSEMINATING OUTCOMES

87 abstracts, presentations, op-eds and peer-reviewed articles have been accepted to disseminate results and program successes.

ADHERING TO TREATMENT

91.9% total patient treatment adherence across sites.

*Represents patient-level data collected across sites
